

WESLEY TEACHES SHORT ANSWERS

My dear friends,

I know that we have talked about the importance of words, and that includes the x-words! Sometimes we have to search for the right words. Sometimes those words are right in front of our eyes. Or, for people, you say “right in front of my nose!” Look at how the question with the x-word gives you the short answer with the **same x-word**.

The science lab is very important. Is the science lab very big and important? Yes, it is.

Wesley flew (hidden did) around the lab to explore. Did Wesley fly around the lab to explore? Yes, he did.

Wesley loves (hidden does) to eat. Does Wesley love to eat? Yes, he does!
He eats (hidden does) everything! Does he eat everything? Yes, he does!

Stacey can snuggle with Wesley. Can Stacey snuggle with Wesley? Yes, she can!

Would you like to try? I hope you’ll reply: “Yes, I would!”

Your friend,
Wesley
